

# Victoria's Professional Teachers' Associations

## Improving teacher efficacy, all year every year

Victoria has over 30 professional teachers' associations. These not-for-profit organisations were established by teachers to raise the standard of education in the different subjects and disciplines taught in schools. It is through the professional learning, resources and support provided by teachers' associations that most teachers become better at teaching *their particular subjects*. In many subject areas, teachers' associations are the only providers of such professional learning.

In the year from July 2021–June 2022, Victoria's professional teachers' associations:

### PROVIDED SUBJECT-BASED PROFESSIONAL LEARNING FOR TEACHERS

- provided 46 days of professional learning conferences to 8413 teachers, enabling them to choose from hundreds of workshops and seminars those which best suited their current needs
- provided 82 full-day professional learning workshops to 2805 teachers
- provided 52 half-day professional learning workshops to 2903 teachers
- delivered 708 short-course (1-to-2 hour) workshops or training to 16,105 teachers

### DELIVERED SUBJECT-SPECIFIC EXTENSION AND SUPPORT FOR STUDENTS

- delivered 515 expert-led learning events and activities to 21,292 students

### CONNECTED TEACHERS TO SHARE RESOURCES AND RAISE THE STANDARD OF SUBJECT TEACHING

- organised 100 networking events to connect 1396 teachers across their region or across the state
- facilitated in-person and online teacher networks reaching 14,024 teachers

### PUBLISHED AND DISSEMINATED PROFESSIONAL READING FOR TEACHERS IN SUBJECT KNOWLEDGE AND PEDAGOGY

- published 29 issues of subject-specific professional reading journals
- published and disseminated 320 curated, subject-related newsletters and bulletins to 92,280 recipients (*note – this figure will include some teachers more than once if they receive the newsletters of more than one association*)
